(a) based on the proposed use of the Project Facility as set forth in the Application, the economic effects of the Project on the area in which it is situated, and the employment reasonably expected to be created and/or maintained by the Project, and an analysis of how the Project contributes to the realization of the public purposes of promoting employment opportunities in the County and the prevention of economic deterioration in the County, the Project will constitute a commercial facility with a significant impact on the area in which it is situated, and will advance the Agency's purposes by promoting employment opportunities and preventing economic deterioration in the County. (f) the Project does not and will not constitute a project where facilities or property that are primarily used in making retail sales of goods and/or services to customers who personally visit such facilities constitute more than one-third of the total cost of the Project; and

(g) the granting of the Financial Assistance by the Agency with respect to the Project will encourage and assist the Applicant in undertaking the Project in the County, will promote the job opportunities, health, general prosperity and economic welfare of the inhabitants of the County and the State and improve their standard of living, and thereby serve the public purposes of the Act.
