(a) based on the proposed use of the Project Facility as set forth in the Application, the economic effects of the Project on the area in which it is situated, and the employment reasonably expected to be created and/or maintained by the Project, and an analysis of how the Project contributes to the realization of the public purposes of promoting employment opportunities in the County and the prevention of economic deterioration in the County, the Project will constitute a commercial facility with a significant impact on the area in which it is situated, and will advance the Agency's purposes by promoting employment opportunities and preventing economic deterioration

in the County. Therefore, the Project constitutes a "project" within the meaning of the Act;

- (b) the granting by the Agency of the Financial Assistance with respect to the Project will be an inducement to the Applicant to undertake the Project in the County;
- (c) the completion of the Project Facility, the sublease thereof by the Agency to the Applicant and the operation thereof by the Applicant will not result in the removal of a facility or plant of the Applicant or any other occupant or user of the Project Facility from one area of the State to another area of the State or in the abandonment of one or more plants or facilities of the Applicant or any other occupant or user located within the State (but outside of the County);
