RESOLUTION AUTHORIZING A DEVIATION FROM THE UNIFORM

INDUSTRIAL DEVELOPMENT AGENCY WITH RESPECT
TO A PROJECT FOR SL JAMESTOWN, LLC
AND/OR ITS AFFILIATES

WHEREAS, the County of Chautauqua Industrial Development Agency (the “Agency”) is authorized and empowered by the provisions of Chapter 1030 of the Laws of 1969 of New York, constituting Title 1 of Article 18-A of the General Municipal Law, Chapter 24 of the Consolidated Laws of New York, as amended (the “Enabling Act”) and Chapter 71 of the 1972 Laws of New York, as amended, constituting Section 895-h of said General Municipal Law (said Chapter and the Enabling Act being hereinafter collectively referred to as the “Act”) to promote, develop, encourage and assist in the acquiring, constructing, reconstructing, improving, maintaining, equipping and furnishing of industrial, manufacturing, warehousing, commercial, research, renewable energy and recreation facilities, among others, for the purpose of promoting, attracting and developing economically sound commerce and industry to advance the job opportunities, health, general prosperity and economic welfare of the people of the State of New York, to improve their prosperity and standard of living, and to prevent unemployment and economic deterioration; and

WHEREAS, to accomplish its stated purposes, the Agency is authorized and empowered under the Act to acquire, construct, reconstruct and install one or more “projects” (as defined in the Act), or to cause said projects to be acquired, constructed, reconstructed and installed and to convey said projects or to lease said projects with the obligation to purchase; and

WHEREAS, SL JAMESTOWN, LLC, a limited liability company duly organized and existing under the laws of the State of Delaware and qualified to do business in the State of New York as a foreign limited liability company (the “Applicant”), presented an application for financial assistance (the “Application”) to the Agency, which Application requested that the Agency consider undertaking a project (the “Project”) consisting of the following: (A)(1) the acquisition of an interest in an approximately 10.912 acre portion of a 70 acre parcel of land located at 1192 Orr Street Extension, Jamestown, Town of Busti, Chautauqua County, New York (collectively, the “Land”), (2) the acquisition, construction, installation, and equipping on the Land of: (i) solar photovoltaic modules mounted on a 1-axis tracking steel structure, (ii) inverters and transformers, (iii) underground and overhead electrical lines, (iv) fencing, and (v) a system of access roads, parking, landscaping and related improvements to the Land (collectively, the “Improvements”), and (3) the acquisition and installation of certain furniture, fixtures, machinery and equipment necessary for the completion thereof (the “Equipment” and together with the

Land and the Improvements, collectively, the “Project Facility”), all of the foregoing for use by the Applicant and/or its affiliates as an approximately 3.0 megawatt A/C solar-powered electrical generation facility; (B) the granting of certain “financial assistance” (within the meaning of Section 854(14) of the General Municipal Law) with respect to the foregoing in the form of potential exemptions or partial exemptions from real property taxes and sales and use taxes (collectively, the “Financial Assistance”); and (C) the lease (with an obligation to purchase), license or sale of the Project Facility to the Applicant or such other entity(ies) as may be designated by the Applicant and agreed upon by the Agency; and

WHEREAS, the Application states that the Applicant is seeking an exemption from real property taxes with respect to the Improvements that, if granted, would constitute a deviation from the Agency’s established Uniform Tax Exemption Policy and Guidelines (the “Tax Exemption Policy”) that is published on the Agency’s website; and

WHEREAS, in accordance with Section 874(4) of the Act, (A) the Administrative Director/CEO of the Agency caused a letter dated January 30, 2025 (collectively, the “Pilot Deviation Notice Letters”) to be mailed to the chief executive officer of each affected tax jurisdiction and to all other persons required by applicable law, informing said individuals that the Agency would, at its meeting on February 25, 2025 (the “IDA Meeting”), consider a proposed deviation from the Tax Exemption Policy with respect to the payment in lieu of taxes agreement to be entered into by the Agency with respect to the Improvements; and (B) the members of the Agency conducted the IDA Meeting on the date hereof and reviewed any comments and correspondence received with respect to the proposed deviation from the Tax Exemption Policy; and

Section 2. Prior to making the determinations set forth in this Resolution, the members of the Agency have considered and weighed all of the factors set forth in the Tax Exemption Policy.

Section 3. Having reviewed all written comments and correspondence received at or prior to the IDA Meeting, the Agency hereby approves the proposed deviation from the Tax Exemption Policy as described in the Pilot Deviation Notice Letters (copies of which are

Deviating from the Policy in this instance will advance the job opportunities, general prosperity and economic welfare of the people of the State of New York and Chautauqua County.

Section 4. The Chairman, Vice Chairman, Administrative Director/CEO and Chief Financial Officer of the Agency are each hereby authorized and directed, acting individually or jointly, to distribute copies of this Resolution to the Applicant and to do such further things or perform such acts as may be necessary or convenient to implement the provisions of this Resolution. County of Chautauqua Industrial Development Agency

West Third Street, Jamestown, County of Chautauqua, New York, the Agency will consider whether to approve the application of SL JAMESTOWN, LLC, a limited liability company duly organized and existing under the laws of the State of Delaware and qualified to do business in the State of New York as a foreign limited liability company (the "Applicant"), for certain "financial assistance" which, if granted, would deviate from the Agency's Uniform Tax Exemption Policy and Guidelines (the "Policy") with respect to the payment of real property taxes.

The Applicant submitted an application for financial assistance (the "Application") to the Agency requesting that the Agency consider undertaking a project (the "Project") consisting of the following: (A)(1) the acquisition of an interest in an approximately 10.912 acre portion of a 70 acre parcel of land located at 1192 Orr Street Extension, Jamestown, Town of Busti, Chautauqua County, New York (collectively, the "Land"), (2) the acquisition, construction, installation, and equipping on the Land of: (i) solar photovoltaic modules mounted on a 1-axis tracking steel structure, (ii) inverters and transformers, (iii) underground and overhead electrical lines, (iv) fencing, and (v) a system of access roads, parking, landscaping and related improvements to the Land (collectively, the "Improvements"), and (3) the acquisition and installation of certain furniture, fixtures, machinery and equipment necessary for the completion thereof (the "Equipment" and together with the Land and the Improvements, collectively, the "Project Facility"), all of the foregoing for use by the Applicant and/or its affiliates as an approximately 3.0 megawatt A/C solar-powered electrical generation facility; (B) the granting of certain "financial assistance" (within the meaning of Section 854(14) of the General Municipal Law) with respect to the foregoing in the form of potential exemptions or partial exemptions from real property taxes and sales and use taxes (collectively, the "Financial Assistance"); and (C) the lease (with an obligation to purchase), license or sale of the Project Facility to the Applicant or such other entity(ies) as may be designated by the Applicant and agreed upon by the Agency.

The Project Facility would be initially owned, operated and/or managed by the Applicant (or such other entity(ies) as may be designated by the Applicant and agreed upon by the Agency).

The Application states that the Applicant is seeking an abatement of real property taxes with respect the Project Facility. Based upon negotiations between representatives of the Applicant and the Agency, the parties contemplate that the Agency may agree to grant a real property tax exemption with respect to the Improvements only (the "Property Tax Exemption"). The Property Tax Exemption would result in a payment in lieu of taxes ("PILOT") agreement between the Agency and the Applicant and/or its affiliates having a term of twenty-five (25) fiscal tax years (the "PILOT Term"), with annual PILOT payments with respect to the Improvements as follows:

No exemption from real property taxes and assessments would be granted by the Agency with respect to the Land or the existing improvements thereon and the Land and such improvements would remain on the tax rolls as taxable property subject to taxation at their then current, full assessed value, as the same may be reassessed from time to time, and subject to tax rate increases imposed by the affected tax jurisdictions.

Thereafter, and through the end of the term of the lease or installment sale agreement with respect to the Project Facility, the payments would be equal to the real property taxes and assessments that would be payable as if the Improvements were returned to the tax rolls as taxable property and subject to taxation at its then current, full assessed value, as the same may be reassessed from time to time, and subject to tax rate increases imposed by the affected tax jurisdictions.

The Property Tax Exemption, if approved by the Agency, would be a deviation from the Policy.

The reason for the proposed deviation is that the Property Tax Exemption, if approved by the Agency, is necessary to induce the Applicant to undertake the Project in Chautauqua County. Deviating from the Policy in this instance will advance the job opportunities, general prosperity and economic welfare of the people of the State of New York and Chautauqua County.

The meeting will be streamed on the Agency's website in real-time and a recording of the meeting will be posted on the Agency's website, all in accordance with Section 857 of the New York General Municipal Law, as amended.

Copies of the Application, including the request for a deviation from the Policy, are available for review by the public online at www.ccida.com. For additional assistance, contact the Agency at (716) 661-8900.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE COUNTY OF CHAUTAUQUA INDUSTRIAL DEVELOPMENT AGENCY AS FOLLOWS:

Section 1. In accordance with Section 859-a of the Act, the Agency has prepared a written cost-benefit analysis with respect to the Project and the granting of the Financial Assistance (the “Analysis”). The Agency has reviewed the Application, the Report and the Analysis, and, based upon the representations made by the Applicant to the Agency and information obtained by the Agency, the Agency has reviewed and assessed all material information necessary to afford a reasonable basis for the Agency to make a determination to approve the Financial Assistance. In addition, the Agency hereby makes the following findings and determinations with respect to the Project:

(a) based on the proposed use of the Project Facility as set forth in the Application, the economic effects of the Project on the area in which it is situated, and the employment reasonably expected to be created and/or maintained by the Project, and an analysis of how the Project contributes to the realization of the public purposes of promoting employment opportunities in the County and the prevention of economic deterioration in the County, the Project will constitute a commercial facility with a significant impact on the area in which it is situated, and will advance the Agency’s purposes by promoting employment opportunities and preventing economic deterioration

in the County. Therefore, the Project constitutes a “project” within the meaning of the Act;

(b) the granting by the Agency of the Financial Assistance with respect to the Project will be an inducement to the Applicant to undertake the Project in the County;

(c) there is a likelihood that the Project would not be undertaken but for the granting of the Financial Assistance by the Agency to the Applicant;

(d) the completion of the Project Facility, the sublease thereof by the Agency to the Applicant and the operation thereof by the Applicant will not result in the removal of a facility or plant of the Applicant or any other occupant or user of the Project Facility from one area of the State of New York (the “State”) to another area of the State or in the abandonment of one or more plants or facilities of the Applicant or any other occupant or user located within the State (but outside of the County). Therefore, the provisions of subdivision (1) of Section 862 of the Act are not and will not be violated as a result of the granting of the Financial Assistance by the Agency to the Applicant;

(e) the Project will serve the public purposes of the Act by preserving permanent, private sector jobs, and increasing the overall number of permanent, private sector jobs in the State;

(f) no funds of the Agency shall be used in connection with the Project for the purpose of preventing the establishment of an industrial or manufacturing plant, nor shall any funds of the Agency be given in connection with the Project to any group or organization which is attempting to prevent the establishment of an industrial or manufacturing plant within the State, nor shall any funds of the Agency be used for advertising or promotional materials which depict elected or appointed government officials in either print or electronic media;

(g) the Project Facility does not and will not constitute a project where facilities or property that are primarily used in making retail sales of goods and/or services to customers who personally visit such facilities constitute more than one-third of the total cost of the Project. For purposes of this finding, retail sales shall mean: (i) sales by a registered vendor under Article 28 of the New York Tax Law primarily engaged in the retail sale of tangible personal property, as defined in subparagraph (i) of paragraph four of subdivision (b) of section 1101 of the New York Tax Law; or (ii) sales of a service to such customers;

(h) the granting of the Financial Assistance by the Agency with respect to the Project will encourage and assist the Applicant in undertaking the Project in the County, will promote the job opportunities, health, general prosperity and economic welfare of the inhabitants of the County and the State and improve their standard of living, and thereby serve the public purposes of the Act; and

(i) the Project will not result in the removal or abandonment of a plant or facility of the Applicant or any other occupant or user of the Project Facility, currently located within the County.

Section 2. The Agency hereby ratifies, confirms and approves all actions heretofore taken by the Administrative Director/CEO, Chief Financial Officer and the staff of the Agency with respect to the Application, the Analysis and the Public Hearing, including, without limitation, (a) those actions required to ensure full compliance with the requirements of the Act, SEQRA and all other Applicable Laws that relate to the Project, and (b) the appointment of the law firm of Phillips Lytle LLP as Counsel to the Agency with respect to all matters in connection with the Project.

Section 3. The Agency hereby determines that the Agency has fully complied with the requirements of the Act, SEQRA and all other Applicable Laws that relate to the Project.

Section 4. Having considered fully all comments received at or in connection with the Public Hearing and the IDA Meeting, including correspondence received subsequent to the Public Hearing, the Agency hereby further determines to proceed with the Project and the granting of the Financial Assistance, subject to the terms hereof. The Agency hereby approves the granting of (a) an exemption from real property taxes having an estimated value of \$816,773, and (b) an exemption from sales and use taxes in the maximum amount of \$463,517.

Section 5. The Agency recognizes that due to the complexities of the proposed transaction it may become necessary that certain of the terms approved hereby may require modifications from time to time which will not affect the intent and substance of the authorizations and approvals by the Agency herein. The Agency hereby authorizes the Chairman, the Vice Chairman, the Administrative Director/CEO and the Chief Financial Officer of the Agency, acting individually or jointly, to approve modifications to the terms approved hereby which do not affect the intent and substance of this Resolution, but may include adjustments to the Financial Assistance granted hereunder. The approval of such modifications shall be evidenced by the certificate of determination of an Agency officer or the execution and delivery by some or all such Agency officers of relevant documents containing such modified terms.

Section 6. The Agency is hereby authorized to (a) acquire an interest in the Project Facility pursuant to the Company Lease and the other Transaction Documents, (b) grant a subleasehold interest in the Project Facility pursuant to the Agency Lease and the other Transaction Documents, (c) grant the Financial Assistance, and (d) do all things necessary, convenient or appropriate for the accomplishment thereof. All acts heretofore taken by the Agency with respect to the foregoing are hereby approved, ratified and confirmed.

Section 7. The form and substance of the Transaction Documents, in the forms presented to the members of the Agency, together with such changes as the Chairman, the Vice Chairman, the Administrative Director/CEO or the Chief Financial Officer may hereafter deem necessary or appropriate, are hereby approved. The Chairman, the Vice Chairman, the Administrative Director/CEO and the Chief Financial Officer are hereby authorized, on behalf of

the Agency, acting together or individually, to execute and deliver the Transaction Documents to which the Agency is a party and, where appropriate, the Secretary (or Assistant Secretary) of the Agency is hereby authorized to affix the seal of the Agency thereto and to attest the same. The execution and delivery of each such agreement, approval and consent by such person(s) shall be conclusive evidence of such approval.

Section 8. The Chairman, the Vice Chairman, the Administrative Director/CEO and the Chief Financial Officer of the Agency are hereby further authorized, on behalf of the Agency, acting together or individually, to designate any additional Authorized Representatives (as defined in the Agency Lease) of the Agency.

Section 9. County of Chautauqua Industrial Development Agency

Ladies and Gentlemen:

Notice is hereby given that at a meeting of the County of Chautauqua Industrial Development Agency (the "Agency") to be held on February 25, 2025 at 10:30 a.m., local time, at the offices of the Agency, 201 West Third Street, Jamestown, County of Chautauqua, New York, the Agency will consider whether to approve the application of SL JAMESTOWN II, LLC, a limited liability company duly organized and existing under the laws of the State of Delaware and qualified to do business in the State of New York as a foreign limited liability company (the "Applicant"), for certain "financial assistance" which, if granted, would deviate from the Agency's Uniform Tax Exemption Policy and Guidelines (the "Policy") with respect to the payment of real property taxes.

The Applicant submitted an application for financial assistance (the "Application") to the Agency requesting that the Agency consider undertaking a project (the "Project") consisting of the following: (A)(1) the acquisition of an interest in an approximately 17.337 acre portion of a 70 acre parcel of land located at 1192 Orr Street Extension, Jamestown, Town of Busti, Chautauqua County, New York (collectively, the "Land"), (2) the acquisition, construction, installation, and equipping on the Land of: (i) solar photovoltaic modules mounted on a 1-axis tracking steel structure, (ii) inverters and transformers, (iii) underground and overhead electrical lines, (iv) fencing, and (v) a system of access roads, parking, landscaping and related improvements to the Land (collectively, the "Improvements"), and (3) the acquisition and installation of certain furniture, fixtures, machinery and equipment necessary for the completion thereof (the "Equipment" and together with the Land and the Improvements, collectively, the "Project Facility"), all of the foregoing for use by the Applicant and/or its affiliates as an approximately 4.75 megawatt A/C solar-powered electrical generation facility; (B) the granting of certain "financial assistance" (within the meaning of Section 854(14) of the General Municipal Law) with respect to the foregoing in the form of potential exemptions or partial exemptions from real property taxes and sales and use taxes (collectively, the "Financial Assistance"); and (C) the lease (with an obligation to purchase), license or sale of the Project Facility to the Applicant or such other entity(ies) as may be designated by the Applicant and agreed upon by the Agency.

The Project Facility would be initially owned, operated and/or managed by the Applicant (or such other entity(ies) as may be designated by the Applicant and agreed upon by the Agency).

The Application states that the Applicant is seeking an abatement of real property taxes with respect the Project Facility. Based upon negotiations between representatives of the Applicant and the Agency, the parties contemplate that the Agency may agree to grant a real property tax exemption with respect to the Improvements only (the "Property Tax Exemption"). The Property Tax Exemption would result in a payment in lieu of taxes ("PILOT") agreement between the Agency and the Applicant and/or its affiliates having a term of twenty-five

No exemption from real property taxes and assessments would be granted by the Agency with respect to the Land or the existing improvements thereon and the Land and such improvements would remain on the tax rolls as taxable property subject to taxation at their then current, full assessed value, as the same may be reassessed from time to time, and subject to tax rate increases imposed by the affected tax jurisdictions.

Thereafter, and through the end of the term of the lease or installment sale agreement with respect to the Project Facility, the payments would be equal to the real property taxes and assessments that would be payable as if the Improvements were returned to the tax rolls as taxable property and subject to taxation at its then current, full assessed value, as the same may be reassessed from time to time, and subject to tax rate increases imposed by the affected tax jurisdictions.

The Property Tax Exemption, if approved by the Agency, would be a deviation from the Policy.

The reason for the proposed deviation is that the Property Tax Exemption, if approved by the Agency, is necessary to induce the Applicant to undertake the Project in Chautauqua County. Deviating from the Policy in this instance will advance the job opportunities, general prosperity and economic welfare of the people of the State of New York and Chautauqua County.

The meeting will be streamed on the Agency's website in real-time and a recording of the meeting will be posted on the Agency's website, all in accordance with Section 857 of the New York General Municipal Law, as amended.

Copies of the Application, including the request for a deviation from the Policy, are available for review by the public online at www.ccida.com. For additional assistance, contact the Agency at (716) 661-8900.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE COUNTY OF CHAUTAUQUA INDUSTRIAL DEVELOPMENT AGENCY AS FOLLOWS:

Section 1. In accordance with Section 859-a of the Act, the Agency has prepared a written cost-benefit analysis with respect to the Project and the granting of the Financial Assistance (the “Analysis”). The Agency has reviewed the Application, the Report and the Analysis, and, based upon the representations made by the Applicant to the Agency and information obtained by the Agency, the Agency has reviewed and assessed all material information necessary to afford a reasonable basis for the Agency to make a determination to approve the Financial Assistance. In addition, the Agency hereby makes the following findings and determinations with respect to the Project:

(a) based on the proposed use of the Project Facility as set forth in the Application, the economic effects of the Project on the area in which it is situated, and the employment reasonably expected to be created and/or maintained by the Project, and an analysis of how the Project contributes to the realization of the public purposes of promoting employment opportunities in the County and the prevention of economic deterioration in the County, the Project will constitute a commercial facility with a significant impact on the area in which it is situated, and will advance the Agency’s purposes by promoting employment opportunities and preventing economic deterioration

in the County. Therefore, the Project constitutes a “project” within the meaning of the Act;

(b) the granting by the Agency of the Financial Assistance with respect to the Project will be an inducement to the Applicant to undertake the Project in the County;

(c) there is a likelihood that the Project would not be undertaken but for the granting of the Financial Assistance by the Agency to the Applicant;

(d) the completion of the Project Facility, the sublease thereof by the Agency to the Applicant and the operation thereof by the Applicant will not result in the removal of a facility or plant of the Applicant or any other occupant or user of the Project Facility from one area of the State of New York (the “State”) to another area of the State or in the abandonment of one or more plants or facilities of the Applicant or any other occupant or user located within the State (but outside of the County). Therefore, the provisions of subdivision (1) of Section 862 of the Act are not and will not be violated as a result of the granting of the Financial Assistance by the Agency to the Applicant;

(e) the Project will serve the public purposes of the Act by preserving permanent, private sector jobs, and increasing the overall number of permanent, private sector jobs in the State;

(f) no funds of the Agency shall be used in connection with the Project for the purpose of preventing the establishment of an industrial or manufacturing plant, nor shall any funds of the Agency be given in connection with the Project to any group or organization which is attempting to prevent the establishment of an industrial or manufacturing plant within the State, nor shall any funds of the Agency be used for advertising or promotional materials which depict elected or appointed government officials in either print or electronic media;

(g) the Project Facility does not and will not constitute a project where facilities or property that are primarily used in making retail sales of goods and/or services to customers who personally visit such facilities constitute more than one-third of the total cost of the Project. For purposes of this finding, retail sales shall mean: (i) sales by a registered vendor under Article 28 of the New York Tax Law primarily engaged in the retail sale of tangible personal property, as defined in subparagraph (i) of paragraph four of subdivision (b) of section 1101 of the New York Tax Law; or (ii) sales of a service to such customers;

(h) the granting of the Financial Assistance by the Agency with respect to the Project will encourage and assist the Applicant in undertaking the Project in the County, will promote the job opportunities, health, general prosperity and economic welfare of the inhabitants of the County and the State and improve their standard of living, and thereby serve the public purposes of the Act; and

Full Environmental Assessment Form
Part 2 - Identification of Potential Project Impacts

Agency Use Only [If applicable]

Project : SL Busti solar - Orr Street

Date : DRAFT - FOR DISCUSSION

Part 2 is to be completed by the lead agency. Part 2 is designed to help the lead agency inventory all potential resources that could be affected by a proposed project or action. We recognize that the lead agency's reviewer(s) will not necessarily be environmental professionals. So, the questions are designed to walk a reviewer through the assessment process by providing a series of questions that can be answered using the information found in Part 1. To further assist the lead agency in completing Part 2, the form identifies the most relevant questions in Part 1 that will provide the information needed to answer the Part 2 question. When Part 2 is completed, the lead agency will have identified the relevant environmental areas that may be impacted by the proposed activity.

If the lead agency is a state agency **and** the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding with this assessment.

Tips for completing Part 2:

- Review all of the information provided in Part 1.
- Review any application, maps, supporting materials and the Full EAF Workbook.
- Answer each of the 18 questions in Part 2.
- If you answer "Yes" to a numbered question, please complete all the questions that follow in that section.
- If you answer "No" to a numbered question, move on to the next numbered question.
- Check appropriate column to indicate the anticipated size of the impact.
- Proposed projects that would exceed a numeric threshold contained in a question should result in the reviewing agency checking the box "Moderate to large impact may occur."
- The reviewer is not expected to be an expert in environmental analysis.
- If you are not sure or undecided about the size of an impact, it may help to review the sub-questions for the general question and consult the workbook.
- When answering a question consider all components of the proposed activity, that is, the "whole action".
- Consider the possibility for long-term and cumulative impacts as well as direct impacts.
- Answer the question in a reasonable manner considering the scale and context of the project.

Full Environmental Assessment Form
Part 3 - Evaluation of the Magnitude and Importance of Project Impacts
and
Determination of Significance

Part 3 provides the reasons in support of the determination of significance. The lead agency must complete Part 3 for every question in Part 2 where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.

Based on the analysis in Part 3, the lead agency must decide whether to require an environmental impact statement to further assess the proposed action or whether available information is sufficient for the lead agency to conclude that the proposed action will not have a significant adverse environmental impact. By completing the certification on the next page, the lead agency can complete its determination of significance.

Reasons Supporting This Determination:

To complete this section:

- Identify the impact based on the Part 2 responses and describe its magnitude. Magnitude considers factors such as severity, size or extent of an impact.
- Assess the importance of the impact. Importance relates to the geographic scope, duration, probability of the impact occurring, number of people affected by the impact and any additional environmental consequences if the impact were to occur.
- The assessment should take into consideration any design element or project changes.
- Repeat this process for each Part 2 question where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.
- Provide the reason(s) why the impact may, or will not, result in a significant adverse environmental impact
- For Conditional Negative Declarations identify the specific condition(s) imposed that will modify the proposed action so that no significant adverse environmental impacts will result.
- Attach additional sheets, as needed.

The part 2 of the FEAF identified several potentially Moderate to Large Environmental Impacts that have been evaluated in the attached part 3 analysis document.

☒ A. This project will result in no significant adverse impacts on the environment, and, therefore, an environmental impact statement need not be prepared. Accordingly, this negative declaration is issued.

☐ B. Although this project could have a significant adverse impact on the environment, that impact will be avoided or substantially mitigated because of the following conditions which will be required by the lead agency:

There will, therefore, be no significant adverse impacts from the project as conditioned, and, therefore, this conditioned negative declaration is issued. A conditioned negative declaration may be used only for UNLISTED actions (see 6 NYCRR 617.d).

☐ C. This Project may result in one or more significant adverse impacts on the environment, and an environmental impact statement must be prepared to further assess the impact(s) and possible mitigation and to explore alternatives to avoid or reduce those impacts. WHEREAS, to accomplish its stated purposes, the Agency is authorized and empowered under the Act to, among other things, (i) acquire by purchase, lease, gift, bequest, devise or otherwise real or personal property or interests therein; and (ii) acquire, construct, reconstruct and install one or more "projects" (as defined in the Act) or to cause said projects to be acquired, constructed, reconstructed and installed, and to convey said projects or to lease said projects with the obligation to purchase; and

WHEREAS, CCIDA is proposing the development of a 64 acre parcel (SBL: 371.00-2-25) located within Mason Industrial Park at Parkway Drive, Ellicott, NY 14701 (the "Site") with the construction of approximately 300,000 square feet of industrial building space and associated infrastructure, including parking and driveway spaces,

new utility services, and stormwater management facilities (collectively, the “Project”); and

WHEREAS, pursuant to Article 8 of the New York Environmental Conservation Law, Chapter 43-B of the Consolidated Laws of New York, as amended (the “SEQR Act”) and the regulations adopted pursuant thereto by the Department of Environmental Conservation of the State of New York (“NYSDEC”), being 6 NYCRR Part 617, et. seq., as amended (the “Regulations” and collectively with the SEQR Act, “SEQRA”), the Agency must satisfy the requirements contained in SEQRA prior to making a final determination whether to undertake the Project; and

WHEREAS, on January 24, 2025, the Agency transmitted to all potentially Interested and Involved Agencies (as those terms defined pursuant to SEQRA) a notice of the Agency’s intent to act as Lead Agency for the review of the Project (together with a completed Part 1 of the Full Environmental Assessment Form), as that term is defined to SEQRA; and

WHEREAS, pursuant to SEQRA, as none of the Interested or Involved Agencies contested lead agency status, and the time period for Interested or Involved Agencies to object had expired, the Town Board assumed the role of Lead Agency for purposes of a segmented review of the Project on February 23, 2025; and

WHEREAS, pursuant to SEQRA, to aid the Agency in determining whether the Project may have a significant adverse impact upon the environment, the Agency has received and reviewed: (1) Part 1 of a full Environmental Assessment Form dated January 23, 2025 (“EAF”); (2) a Wetland Delineation Report dated October 2024 (“Wetland Report”); (3) a Threatened and Endangered Species Study dated October 2024; (4) a Preliminary Geotechnical Evaluation dated August 28, 2024 (“Geotech Report”); (5) a Cultural Resource Study dated December 2024; (6) a Topographic and Feature Survey dated November 20, 2024 (“Survey”); (6) a Traffic Study dated September 27, 2024; (7) a master site plan and concept plan dated December 2024 (“Site Plans”); (8) a “No Effect Letter” from the New York State Office of Parks, Recreation, and Historic Preservation (“OPRHP”); and (9) other relevant information (collectively, 1-9 the “Environmental Information”); and

WHEREAS, a thorough analysis of the Environmental Information and potential environmental impacts associated with the Project reveals that the Project will not have any potentially significant adverse environmental impacts; and

WHEREAS, it is appropriate that the Agency issue a negative declaration pursuant to SEQRA for the Project.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE COUNTY OF CHAUTAUQUA INDUSTRIAL DEVELOPMENT AGENCY AS FOLLOWS:

Section 1. Based upon a thorough review and examination of the Project and Environmental Information, and upon the Agency's knowledge of the area surrounding the Site and such further investigation of the Project and its environmental effects as the Agency has deemed appropriate, the Agency makes the following findings with respect to the Project:

- (A) The Project is an Type I Action pursuant to SEQRA as the Project involves the disturbance of more than 10 acres of land.
- (B) No potentially significant adverse impacts on the environment are noted in the Environmental Information and none are known to the Agency.

Section 2. Based upon the Agency's review of the Environmental Information and investigations of the potential environmental impacts associated with the Project, considering both the magnitude and importance of each potential environmental impact indicated, and upon the Agency's knowledge of the Site and surrounding area and such further investigations of the Project and its environmental effects as the Agency has deemed appropriate, the Agency has determined that the Project will not have a significant adverse impact upon the environment. The reasons supporting this determination are as follows:

1. **Impact on Land.** The Project consists of the development of a vacant approximately 64 acre parcel within the Mason Industrial Park for the future construction of an approximately 300,000 square foot industrial building space

with associated parking, driveway, new utility services and connection, and stormwater facilities and practices. The Site will be marketed for development by the CCIDA. The building configuration adding up to approximately 300,000 square feet will be established by a developer or developers that are interested in the Site. The Project will disturb approximately 30 acres of the existing 64 acre Site. The Site is zoned industrial and the Project is consistent with the classification. The Site lies to the west of Parkway Drive with other industrial uses to the north, wooded rural areas to the west, and commercial uses to the south. As such the Project will not impact or deter existing or future adjacent land uses and is consistent with such uses.

The Project does not involve any substantial excavation, mining or dredging and will be completed in a single phase lasting 12 months. The Project will create 14.1 acres of impervious surface compared to the total parcel size of approximately 64 acres. While the Site includes areas with a slope of 15% or greater, these more heavily sloped areas are located in the wooded portion of the south of the Site. Additionally, while there will be temporary runoff during construction, it will be discharged onsite and controlled by stormwater and sediment/erosion control best management practices consistent with the requirements of a stormwater pollution prevention plan prepared pursuant to the NYSDEC State Pollutant Discharge Elimination System (SPDES) General Permit for Stormwater Discharges from Construction Activity. As noted in the EAF, the Project is not within a Coastal Area, a waterfront area of a Designated Inland Waterway, or a Coastal Erosion Hazard Area. While the Town is party to the Chautauqua Lake Local Waterfront Revitalization Program ("Chautauqua LWRP"), the Site is not located within the boundaries of the Chautauqua LWRP.

Based on the foregoing, the Project will not create any potentially significant adverse impacts to land resources or land use.

2. Impact on Geological Features. The Project does not contain and is not adjacent to any unique geologic features or National Natural Landmarks. Accordingly, the Project will not create any potentially significant adverse impacts to geological features.
3. Impact on Surface Water. The Wetland Report identified 5 wetlands and 5 streams located on the Site, but identified no state-mapped wetlands or streams. The Wetland Report notes that it is likely that some of the wetlands, and the connecting streams, are federally jurisdictional. However, per the Site Plans, there will be no disturbance of any regulated wetlands or streams within the adjacent area.

Additionally, the EAF and Site Plans indicate that the Project will involve the impoundment of stormwater runoff by construction of a new stormwater management facility on Site that will have an approximate volume of 4.6 million gallons, a surface area of 3.5 acres, and height of 4 feet and length of 150 feet, comprised of earth fill. As previously mentioned, the Project will create approximately 14.1 acres of impervious surface on the 64 acre Site. Additionally, while there will be temporary runoff during construction, it will be discharged onsite and controlled by stormwater and sediment/erosion control best management practices. Based on the foregoing, the Project will not create any significant adverse impacts on surface water.

4. Impact on Groundwater. As noted above, the Project will disturb approximately 30 acres of the existing 64 acre Site. This disturbance will not require substantial excavation which would impact groundwater or otherwise impact the existing aquifer. The EAF demonstrates that Project will require a new demand of water at a total of 7,500 gallons/day. The existing public water supply in the Town of Ellicott water service area has the capacity to serve the Project, and will not require an expansion of the water district or extension of new water lines. Additionally, the Project will generate sanitary wastewater and other industrial liquid waste at a total of 7,500 gallons/day. The Project will use the existing City of Jamestown Wastewater Treatment Plant located in the Jamestown Board of Public Utilities, which has capacity to service the Project, and will not require the expansion of the existing district or the extension of existing sewer lines. Lastly, the EAF demonstrates that the Project will not involve new bulk storage of chemicals or production of hazardous waste or any other activities that would pose a threat to groundwater such as the use of pesticides, herbicides, or insecticides. Based on the foregoing, the Project is not anticipated to create any significant adverse impacts to groundwater.
5. Impact on Flooding. The EAF states that the Project will not result in the development of lands which are subject to flooding. The Project is not within a designated floodway or floodplain. As previously mentioned, the EAF and Site Plans indicate that the Project will involve the impoundment of stormwater runoff by constructing a new stormwater management facility on Site that will have an approximate volume of 4.6 million gallons, a surface area of 3.5 acres, and height of 4 feet and length of 150 feet, comprised of earth fill. Accordingly, the Project is not anticipated to create any significant adverse impacts to flooding.
6. Impact on Air. The Project will not include or create significant sources of air emissions, and it does not entail the types of activities or operations that require the CCIDA or a future developer of the Project to obtain air registration permits or that are associated with a significant potential for air emissions. To the extent

onsite equipment will result in emissions, such emissions are anticipated to be below levels requiring state or federal permitting. Given the limited area of disturbance of the Project and the limited duration of the same, any impacts to air quality from construction activities will be minor and temporary in nature. Accordingly, the Project is not anticipated to create any significant adverse impacts to air resources.

7. Impact on Plants and Animals. As noted in the EAF, the predominant wildlife species that occupy or use the Site include various bird species and common rodents. The Site does not contain a designated significant natural community. The Project will convert approximately 17.1 acres of meadow, grassland or brushland located on the on the Site. Moreover, the Project will not involve the use of pesticides during construction or operation.

The Threatened and Endangered Species Study indicates the there are no state-listed or rare species in the vicinity of the Site. The Threatened and Endangered Species Study does notate that Site is in the vicinity of northern long-eared bat (federally listed endangered species), clubshell (federally listed endangered species), northern riffleshell (federally listed endangered species), rayed bean (federally listed endangered species), and monarch butterfly (a candidate species for federal listing). Since the Project will be limited to the existing field and tree cutting will not be required, there will be no impacts to the northern long-eared bat. Further, the Project will not impact the clubshell, northern riffleshell, and rayed bean, as the Site is not within or adjacent to any perennially streams as habitats for these types of mussel species. Lastly, the monarch butterfly is not currently listed and there are no critical habitats on the Site, therefore the Project will not impact the species or need a formal evaluation.

Accordingly, the Project is not anticipated to create any significant adverse impacts on plants and animals.

8. Impact on Agricultural Land Resources. The EAF notes that the Project is not located in a designated agricultural district, and will not result in the conversion of farmland. The Site does not contain any present or potential agricultural lands. As the Project will not have any other significant adverse impacts to water, air, health, the Project will not indirectly impact any existing nearby agricultural operations. Accordingly, the Project will not create any significant adverse impacts to agricultural land.
9. Impact on Aesthetic Resources. The EAF notes that the Project is located within 0.68 miles of the Clay Pond Wildlife Management Area, which is a state wildlife management area.. The Project proposes a 300,000 square foot of industrial building space that will comprise of one structure that is approximately 40 feet

high, 300 feet wide, and 1000 feet long, as described in the EAF. The Project will not be significantly be visible to the public, as it is located on west of Parkway Drive and Country Road 380, surrounded by existing vegetation and mature trees, as shown in the Site Plans. To limit any impacts to aesthetic resources, the Site Plans indicate that existing vegetative buffers and mature trees will be retained to provide natural screening. In addition, the Site is surrounded by industrial uses of various sizes, including one similarly-sized facility located immediately northwest of the Site. Based on the foregoing, the Project is not anticipated to create any significant adverse impacts to aesthetic resources.

10. Impact on Historic and Archaeological Resources. As noted in the EAF, the Site is located in or adjacent to an area designated as sensitive for archaeological sites on the New York State Historic Preservation Office archaeological site inventory. As summarized in the Cultural Resource Study, impacts to historic and archaeological resources were investigated to determine whether any cultural resources would be negatively impacted by the Project. This was accomplished through additional Phase IA literature research, site file search, and sensitivity assessment; and Phase IB field investigation in the form of shovel testing. The Cultural Resource Study indicated that the APE is situated in the Allegheny Plateau physiographic province with no mapped units of alluvial soil. Based on the results of Phase IA background research, the APE was considered to have a high degree of sensitivity for Indigenous sites and a low degree of sensitivity for historic period sites. During the Phase IB field investigation, 131 shovel tests were excavated within the APE. No Indigenous or historic period sites were identified. Due to the lack of archaeological sites identified within the APE, no cultural resources in or eligible for inclusion in the State or National Registers of Historic Places will be impacted by the Project. The Project and the Cultural Resource Study was submitted to OPRHP which concurred and issued the No Impact Letter determining that no historic properties, including archaeological and/or historic resources would be affected by the Project. Accordingly, the Project will not create any significant impacts to historic or archeological resources.
11. Impact on Open Space and Recreation. The Site is not used by members of the community for public recreation, and is not used, or could be used, for hunting, trapping, fishing or shell fishing. Accordingly, the Project will not create any significant impacts to open space or recreational resources.
12. Impact on Critical Environmental Areas. According to the EAF, the Project is not located in or substantially contiguous to any Critical Environmental Areas. Accordingly, the Project will not create any significant impacts to Critical Environmental Areas.

13. Impact on Transportation. As provided in the Traffic Study, the total number of trips that will be generated from the Project during A.M. peak hour include 205 entering and 39 exiting, and during P.M. peak hour include 43 entering and 151 exiting. Under the Project's build conditions, the additional site generated traffic has a negligible impact on the level of service and delay at adjacent intersections and the proposed driveway. All intersections remain operational at an acceptable level of service and minimal delay under the existing and no-build conditions. Route 380 and adjacent roadways all prove to have sufficient capacity to handle the additional traffic. With the low volume of traffic on Parkway Drive, there are sufficient gaps in traffic for vehicles to enter the road from the Site's driveway with minimal delay. Furthermore, the Traffic Study states that with the generally low volume of traffic on Route 380 and Allen Street exit, there are sufficient gaps for vehicles to enter onto the major roadway network with minimal delay. The Traffic Study concludes that no improvements or modifications to the existing roadway network are necessary or warranted. Accordingly, the Project is not anticipated to create any significant adverse impacts on transportation.
14. Impact on Energy. As noted in the EAF, it is estimated that the annual electricity demand during operation of the Project will be 1,890 KVA. In addition, the EAF notes that the Project will require that 300,000 square feet of building space to be heated or cooled. Further, the EAF provides that the Project will be serviced by the local utility provider through the existing power grid, without the need for an upgrade to any existing substations near the Site. The Project will be operated in compliance with the State Building Code and Energy Code requirements. Accordingly, the Project will not create any significant adverse impacts on energy.
15. Impact on Noise, Odor and Light. The Project is not expected to create impacts from odors outside of temporarily during construction. The Project does not contain excessive lighting. The Project is expected to increase noise levels during construction from 7:00 am to 5:00 pm. However, any impacts to noise or odor from construction activities will be minor and temporary in nature. The Project does not include any significant sources of lighting, noise or odor during operations. The EAF notes that minor exterior lighting and fixtures will be on the new building, parking lot, and driveway. The Project will use only downward-facing, full cut-off lens lights compliant with dark-sky requirements. There are no known sensitive receptors nearby, and the Site is mostly surrounded by other industrial uses, with some rural wooded areas and commercial uses. Accordingly, the Project will not create any significant adverse impacts on noise, odor or light.

16. Impact on Public Health. The Project does not involve the types of activities or operations that are associated with a significant potential for affecting public health, including the use, creation, disposal or storage of a hazardous or toxic substance. Further, any solid waste generated at the Site will be properly disposed of pursuant to Federal, State and local laws and regulations. Accordingly, the Project is not anticipated to create any significant adverse impact to public health.
17. Impact on Character of the Community and Community Plans. The Project is consistent with the Site's industrial zoning classification as well as its location in the existing Industrial Park and will not have any other significant environmental impacts to the surrounding community as described above. The Project is not anticipated to result in secondary development effects or significant population growth. Accordingly, the Project will not create any significant adverse impacts to the character of the community or community plans.

Section 3. Since the Project will not have a significant adverse impact on the environment, a negative declaration ("Negative Declaration") pursuant to SEQRA is hereby issued, and the EAF Parts II and III prepared by CCIDA are hereby adopted by the Agency. This Negative Declaration has been prepared pursuant to and in accordance with the requirements of SEQRA.

Section 4. The Chairman, the Vice Chairman, the Chief Executive Officer and the Chief Financial Officer of the Agency are hereby further authorized on behalf of the Agency, or acting together or individually, to distribute copies of this Resolution and to do such further things or perform such acts as may be necessary or convenient to implement the provisions of this Resolution.

Section 5. This Resolution, which is adopted by a majority vote of the Agency, shall serve as the Negative Declaration (as defined in 6 NYCRR 617.2(z)) for the Project, and is issued by the Agency pursuant to and in accordance with SEQRA in connection with the Agency's environmental impact review, shall take effect immediately.

Full Environmental Assessment Form
Part 2 - Identification of Potential Project Impacts

Agency Use Only [If applicable]	
Project :	Mason
Date :	February 25, 2025

Part 2 is to be completed by the lead agency. Part 2 is designed to help the lead agency inventory all potential resources that could be affected by a proposed project or action. We recognize that the lead agency's reviewer(s) will not necessarily be environmental professionals. So, the questions are designed to walk a reviewer through the assessment process by providing a series of questions that can be answered using the information found in Part 1. To further assist the lead agency in completing Part 2, the form identifies the most relevant questions in Part 1 that will provide the information needed to answer the Part 2 question. When Part 2 is completed, the lead agency will have identified the relevant environmental areas that may be impacted by the proposed activity.

If the lead agency is a state agency **and** the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding with this assessment.

Tips for completing Part 2:

- Review all of the information provided in Part 1.
- Review any application, maps, supporting materials and the Full EAF Workbook.
- Answer each of the 18 questions in Part 2.
- If you answer “**Yes**” to a numbered question, please complete all the questions that follow in that section.
- If you answer “**No**” to a numbered question, move on to the next numbered question.
- Check appropriate column to indicate the anticipated size of the impact.
- Proposed projects that would exceed a numeric threshold contained in a question should result in the reviewing agency checking the box “Moderate to large impact may occur.”
- The reviewer is not expected to be an expert in environmental analysis.
- If you are not sure or undecided about the size of an impact, it may help to review the sub-questions for the general question and consult the workbook.
- When answering a question consider all components of the proposed activity, that is, the “whole action”.
- Consider the possibility for long-term and cumulative impacts as well as direct impacts.
- Answer the question in a reasonable manner considering the scale and context of the project.

Full Environmental Assessment Form
Part 3 - Evaluation of the Magnitude and Importance of Project Impacts
and
Determination of Significance

Part 3 provides the reasons in support of the determination of significance. The lead agency must complete Part 3 for every question in Part 2 where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.

Based on the analysis in Part 3, the lead agency must decide whether to require an environmental impact statement to further assess the proposed action or whether available information is sufficient for the lead agency to conclude that the proposed action will not have a significant adverse environmental impact. By completing the certification on the next page, the lead agency can complete its determination of significance.

Reasons Supporting This Determination:

To complete this section:

- Identify the impact based on the Part 2 responses and describe its magnitude. Magnitude considers factors such as severity, size or extent of an impact.
- Assess the importance of the impact. Importance relates to the geographic scope, duration, probability of the impact occurring, number of people affected by the impact and any additional environmental consequences if the impact were to occur.
- The assessment should take into consideration any design element or project changes.
- Repeat this process for each Part 2 question where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.
- Provide the reason(s) why the impact may, or will not, result in a significant adverse environmental impact
- For Conditional Negative Declarations identify the specific condition(s) imposed that will modify the proposed action so that no significant adverse environmental impacts will result.
- Attach additional sheets, as needed.

See attached resolution for justification of negative declaration.

and considering both the magnitude and importance of each identified potential impact, it is the conclusion of the
County of Chautauqua Industrial Development Agency _____ as lead agency that:

☒ A. This project will result in no significant adverse impacts on the environment, and, therefore, an environmental impact statement need not be prepared. Accordingly, this negative declaration is issued.

☐ B. Although this project could have a significant adverse impact on the environment, that impact will be avoided or substantially mitigated because of the following conditions which will be required by the lead agency:

There will, therefore, be no significant adverse impacts from the project as conditioned, and, therefore, this conditioned negative declaration is issued. A conditioned negative declaration may be used only for UNLISTED actions (see 6 NYCRR 617.7(d)).

☐ C. This Project may result in one or more significant adverse impacts on the environment, and an environmental impact statement must be prepared to further assess the impact(s) and possible mitigation and to explore alternatives to avoid or reduce those impacts. Accordingly, this positive declaration is issued.
